

## **Find the Perfect New Home for Your Lifestyle – and Move in Before the Holidays!**

*By Elizabeth Schreckenberg*

Fall is officially here. Most of us appreciate the beautiful scenery that the leaves paint as they change colors. But not everyone enjoys spending hours raking them after they pile up on our lawns.

Before we know it, the first snow of winter will fall, blanketing the sidewalks, streets and driveways with sheets of crystal white fluffy stuff. It's nice to look at, but cumbersome to shovel away each time we need to leave our homes.

If you owned a home in Seasons Village, you could spend less time worrying about maintaining your yard and driveway in the upcoming seasons, and more time enjoying the approaching holidays with family and friends. With lawn care and street cleaning service, heated driveways and sidewalks, and maintenance-free home exteriors, residents of the 50+ Active Adult Community have nothing to focus on but making new recipes, baking cookies, and decorating their homes.

Robert and Pat Moore are developing Seasons Village, and are also residents of the community. Pat said now is a perfect time to choose a home in the neighborhood.

“We have two display homes available for immediate occupancy starting at \$275,000,” she said.

“You could be in by the holidays spending time by the fireplace with your spouse, family, and friends instead of winterizing your home.”

Within minutes from Seasons Village are hospitals/doctors, a library, a YMCA, colleges/universities, shopping, restaurants, biking/walking trails, and interstate access. Located between Troy and Glen Carbon at the corner of Bouse and Whitworth Drive, both display homes are open on weekends from 1-5 PM. Call 288-3241 any time to make an appointment for a weekday showing.
